

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

February 16-28, 2006

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 16-28, 2006.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

1999112036	Contra Costa Center Specific Plan Amendment to Pleasant Hill Commons Redevelopment Plan Pleasant Hill, City of Pleasant Hill--Contra Costa Adoption and implementation of Contra Costa Center Specific Plan, providing detailed land use policies, development standards and zoning regulations for southerly 12.8-acre portion of original Contra Costa Shopping Center, located north of Hookston Road and west of Buskirk Avenue in the City of Pleasant Hill. This supplement to the original Redevelopment Plan EIR will provide refined information to addresses changes in land use and development policy identified in the proposed Specific Plan.	FIN	
2003042068	Mountain Vista and Sycamore Glen Subdivisions (S00-11 & S01-02) Chico, City of Chico--Butte Subdivision to create 409 lots for single-family residential uses - develop 270 multi-family residential units. Develop 25,000 square feet commercial building space.	FIN	
2006021087	Amendment to Master Plan for Phases 1 & 2 / Master Site Approval 2005-04 Chino, City of Chino--San Bernardino The project represents an Amendment to the Master Plan for Phases 1 & 2 of the Preserve in the City of Chino. This Amendment to the Master Plan includes Tentative Tract Map numbers 17057, 17571, 17572, 17626, and 17635. A large portion of the Master Plan for Phases 1 & 2 site (encompassing 65.6 acres) was included as part of the originally adopted Master Plan, has an approved TTM (16418), and was included in the original IS/MND. This area was originally planned for a 650 unit apartment community, an RV storage site and two sites for community facilities. This amendment would modify the approval to allow 718 attached and detached dwellings on 8 guest builder sites in this area. The current project site area to the east of Rincon Meadows Avenue (which was not part of the original Master Plan) comprises 3 guest builder sites and 225 units, bringing the total for this amendment to 943 dwellings. Four pocket parks, a 3-acre private recreation center, and detention basin are also proposed.	MND	03/17/2006
2006021093	Portola La Mesa, City of La Mesa--San Diego The proposed project consists of an application for a Tentative Tract Map (TTM-05-05), Site Development Plan (DAB 05-14) and Design Review (DRB 05-14) for a one-lot subdivision with 178 condominium units of residential development on a 9.17-acre site. A General Plan Amendment (GPA-05-02) is proposed to change the land use designation from Urban Residential to Multiple Unit Residential, as well as a Zone Reclassification (Z-01-05) to change the zoning designation on a majority of the site from General Commercial (C) to Multiple Unit Residential (R3). The portion of the site currently zoned Urban Residential (R1) would not be rezoned. A Zone Ordinance Amendment (ZOA 05-01) is proposed to allow for tandem parking to satisfy off-street parking requirements. A Special Permit (SP-05-17) is proposed for exceptions to building heights, fence heights and grading. The project also would include a Conditional Use Permit (CP-06-05) for the relocation of an existing cellular antenna structure and associated equipment. Hardscape/landscape, common recreation facilities and utility improvements are also proposed.	MND	03/17/2006

2006022085	<p>boundary of the site (adjacent to the newly installed ship berths), 197 total ship berths, boat launching area, an eight-room bed and breakfast, and an approximate 2,000 sq. ft. bait shop/deli (being relocated to the northern side of the boat launch).</p> <p>Highlands Place (Tentative Subdivision Map No. 05-10, General Plan Amendment No. 05-07, Zoning Change No. 05-14) Oroville, City of Oroville--Butte</p> <p>A proposal to amend the land use designations and resubdivide 9 lots totaling 1.63 acres into 18 lots. The project site abuts the south side of Oro Dam Boulevard East, between Highlands Boulevard and Midway Drive. The proposal would amend the current General Plan Diagram designation from Medium Density Residential (6 homes/acre maximum) to High Density Residential (20 homes/acre maximum density). The proposal would also amend the Zoning Map designation from Single-Family Residential (R-1) to High Density Residential/Planned Unit Development. The proposal includes widening the alley on the project site to allow access to the lots from the alley.</p>	MND	03/20/2006
2006022086	<p>Butte Woods (Tentative Subdivision Map No. 05-08) Oroville, City of Oroville--Butte</p> <p>A proposal to subdivide three properties totaling 56 acres into 164 lots for single-family homes. The project site is located east of Butte Woods Drive and it abuts Foothill Boulevard on the north and Oroville Garden Ranch Road on the south. The project would create one new intersection with Foothill Boulevard and extend Butte Woods Drive to provide access from the Butte Woods Drive intersection with Foothill Boulevard. The project would also create one new intersection with Oroville Garden Ranch Road. Over 5 acres of open space for preservation of oak trees will be provided.</p>	MND	03/20/2006
2006021097	<p>Development of the Puente Hills Intermodal Facility Industry, City of Whittier, Pico Rivera, Industry--Los Angeles</p> <p>The proposed project is the development of an intermodal facility, for the exclusive purpose of loading and unloading rail-ready shipping containers containing non-hazardous municipal solid waste (MSW) between rail cars and trucks. The facility would be designed to handle up to 2 trains per day, or approximately 8,000 tons per day (tpd) of MSW, including up to 4,000 tpd from the nearby Puente Hills Materials Recovery Facility (MRF), with the remainder coming from other materials recovery facilities. The proposed project would include three main features: 1) the construction and operation of the intermodal facility; 2) a non-street access way for inbound and outbound traffic between the site and the Puente Hills MRF; and 3) rail improvements within Union Pacific Railroad right-of-way to allow productive operation of the intermodal facility.</p>	NOP	03/20/2006

	from an existing well on the northeast corner of the property, the other will be located approximately 260 feet southeast of an existing warehouse; (6) Approximately 1,900 feet of trench will be made to allow for the installation of the power supply and to carry water to the existing facilities.		
2006028265	West Coast Regional Carbon Sequestration Partnership, Phase II Energy Commission Rio Vista--Sacramento, Shasta The purpose of this WA is to augment current PIER climate change mitigation research activities and expand its program to develop additional data on regional CO2 sinks; to update and expend regional carbon supply curves; and to validate CO2 injectability and secure storage in the vast depleting oil and/or gas reservoirs and saline formations underlying California's Great Central Valley. This meets the PIER goal of improving the Environmental, Public Health, and Safety of California's Electricity by validating technologies that can keep CO2 produced by fossil fuel combustion away from the atmosphere for centuries or longer, curbing the atmospheric build-up of this greenhouse gas, which has been linked to climate changes that are projected to adversely affect the state. This project also meets the secondary PIER goal of Addressing Important RD&D Gaps, particularly the extent to which climate change mitigation measures for today's energy systems (i.e., carbon sequestration) can affordably forestall adverse impacts over the decades needed to achieve the CO2-emission-free "hydrogen-electric economy."	NOE	
2006028269	CRV Enterprises, Inc. (Olive Orchard Estates) Substantial Conformance & Amendment to Conditions Request Calaveras County Planning Department --Calaveras The applicant is requesting a Substantial Conformance & Amendment to Conditions per the approved Olive Orchard Estates Subdivision Map 2003-157, on December 20, 2004 by the Board of Supervisors Resolution No. 04-361. The site is zoned RA (Residential Agriculture-5 acre minimum parcel size) on about 256.31 +/- acres, currently vacant land.	NOE	
2006028270	Ammophila Removal Trials Parks and Recreation, Department of --Mendocino Conduct a series of experimental Ammophila arenaria removal trials within the Ten Mile dunes of MacKerricher State Park. The trials will consist of ten, 25'x100' plots. Heavy equipment will be used to remove the Ammophila on four of the plots; four other plots will be burned and treated with herbicide; and hand removal will be used on two plots. The experimental trials will provide information to enable California State Parks (CSP) to better control this invasive noxious weed. To avoid the potential for disturbance to western snowy plovers, permitted plover monitors will survey each day prior to operations. If plovers are observed within 100 yards of the operational area, an alternative non-plover work area will be selected and operations will be moved for the duration of plover presence. To avoid direct impacting activities away from sensitive areas. No work shall be conducted in areas of sensitive plant species.	NOE

2006028272	Former James G. Lee Record Processing, Interim Corrective Measures for Contaminated Soil Toxic Substances Control, Department of Gardena--Los Angeles The objective of the interim measures is to remove metals contaminated soil to background levels indicated in the workplan. Approximately 120 tons of soil will be excavated from the top 5 feet of the site to reach this goal. The interim project will be completed in approximately 15 days, including transport of the contaminated soil for offsite disposal. Following completion of the interim measures and post sampling of the site, a risk assessment for the residual solvent contamination will be conducted. Based upon this information, a final remedy, requiring either further remedial measures or institutional controls, will be submitted for separate approval.	NOE	
2006028273	Transfer of Coverage to El Dorado County APN 23-626-09 (McNaboe) Tahoe Conservancy South Lake Tahoe--El Dorado Project consists of the sale and transfer of 685 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2006028274	Transfer of Coverage to El Dorado County APN 34-692-13 (Johnson) Tahoe Conservancy Unincorporated--El Dorado Project consists of the sale and transfer of 43 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2006028275	Lake Oroville Boarding Float Replacements/Extensions Boating and Waterways, Department of Oroville--Butte Boarding floats at various locations around Lake Oroville and the Forebay area are in need of replacement and/or extension to safely accommodate public use of the facilities. The facilities are as follows: Loafer Creek, North Forebay locations 1 and 2, and South Forebay: Replace existing boarding float no increase in size. Bidwell Canyon: The existing boarding float is 6 feet wide by 60 feet long. This will be replaced with a new boarding float that is 8 feet wide and 100 feet long (five 20 foot sections). Spillway: The spillway facility has three separate boarding float systems 60 feet long (in three 20 foot sections). All three will have two new 20 foot sections added to them so they will all be 100 feet long.	NOE

2006028276	<p>Pedrazzini County Park-Boat Launching Facility Boating and Waterways, Department of --Humboldt</p> <p>The existing gravel launch ramp has been used since 1970 for river access. The facility is owned by the State Lands Commission and operated by the Humboldt County Department of Public Works. Over the years the condition of the launching facility has deteriorated due to erosive forces of the river. This project will replace the existing gravel ramp with a 28-foot wide and 100-foot long concrete launch ramp. A 28x60 foot section of the ramp will be push slab and 28x40 will be cast in place. The ramp will also include a 28x60 foot apron. The project will also improve the existing bank stabilization in the vicinity of the launch ramp. The project will also include parking area improvements such as grading and resurfacing with gravel.</p>	NOE

2005112126	Ballpark Stadium in the Diridon Arena Area San Jose, City of San Jose--Santa Clara The City of San Jose Redevelopment Agency is considering the development of a major league baseball stadium, a parking structure and a future commercial development site. The project would reconfigure the 17 existing parcels in order to develop The proposed project consists of the development of an approximately 1.5 million square foot major league baseball stadium, a parking structure, and a future commercial development site on approximately 23.1 acres. Maximum capacity of the stadium would be 45,000 patrons. The facility would also contain a combination of retail and restaurant uses either associated directly with the stadium or facilities located on the exterior of the building that provide general or retail or food services.	EIR	04/06/2006

As part of the proposed project, an approximately 420,000 square foot, five-story, 1,200-space parking structure is proposed south of the stadium, south of Park Avenue. A pedestrian bridge crossing Park Avenue would connect the stadium and parking structure. Access to the parking structure would be provided from Park Avenue and South Autumn Street. Montgomery Street between W. San

2006029051	<p>Westminster Community Cultural Center Westminster, City of Westminster--Orange</p> <p>The project consists of a proposed Community Cultural Center that includes a 419-seat theater and a banquet hall (6,500 sq. ft.) that could be divided into three small rooms. The proposed building (theater) is approximately 44 feet in height and 24 feet in height (banquet hall). The project also includes a box office, administrative support offices and a landscaped courtyard provided outside of the banquet hall. The courtyard is the central outdoor area around which the theater, box office, lobby, banquet hall, public restrooms, and administrative areas are arranged. The proposed Community Cultural Center will feature a range of community services and activities. The purpose of the center is to provide a community focal and activity point for all persons. All segments of Westminster's multi-cultural community will utilize these facilities regardless of age, ethnicity, social or economic status. The 3.03-acre project site is currently undeveloped and is zoned P/SP Public/Semi-Public. Surrounding and nearby land uses to the project site include the following: Civic Center (City Hall, Westminster Police Department, County Superior Court West Justice Center, Westminster Library), Sid Goldstein Freedom Park, Warner MS, and the vacant property to the north, which will be developed with a Coastline Community College Learning Center, and Centerstone residential project currently under construction.</p>	NOD

2006028305	Emergency Permit for Leachate Storage and Treatment Modifications at West Contra Costa Sanitary County Landfill Toxic Substances Control, Department of Richmond--Contra Costa DTSC has issued West Contra Costa Sanitary Landfill, Inc (WCCSL) an emergency permit to implement additional hazardous waste treatment and storage operations not authorized in the Hazardous Waste Facility Post-Closure Permit, which was issued to WCCSL by DTSC on July 9, 2003. The treatment and storage is for removal of leachate located within and below the landfill. The Hazardous Waste Facility Post-Closure Permit requires the WCCSL to remove and treat leachate within the landfill. It has been determined that the Leachate Extraction and Treatment System has not been operating adequately to establish and maintain an inward hydraulic gradient within the landfill, thus, causing releases of hazardous waste leachate from the landfill. In order to remediate the existing imminent and substantial endangerment, DTSC has required WCCSL to pump the hazardous waste leachate from the subsurface at 21,600 gallons per day as required in the February 2, 2006, DTSC Enforcement Order, Docket HWCA 20061079.	NOE	
2006028306	Rubber Sidewalk, Silverwood Lake (05/06-IE-17) Parks and Recreation, Department of --San Bernardino This project will replace approximately 600 square feet of degraded asphalt with rubber sidewalk at the Sawpit Day Use area, making the area ADA accessible.	NOE

1998112080	Lease Consideration for the Existing Chevron Richmond Long Wharf Marine Terminal California State Lands Commission Richmond--Contra Costa Proposed 30-year lease of 68 +/- acres of California sovereign lands would allow Chevron USA, Inc. to continue its marine oil terminal operations for vessel transfers of crude oil and petroleum products. The terminal enables transfers to upland storage and refinery facilities approximately 1 mile west of the City of Richmond, south of the Richmond-San Rafael Bridge and Castro Point, northwest of Point Richmond and North of the Richmond Harbor Entrance, in Contra Costa County.	EIR	04/13/2006
2004012028	Napa Gateway Plaza: P05-0190-TM (Tentative Map) and P05-0191-UP (Use Permit) Napa County --Napa Request for approval of tentative map application to create seven parcels from the existing four parcels, creating three additional lots and a use permit application for 174,984 square feet of retail, office, and restaurant use in a series of five buildings (buildings C through H), 100-room hotel (building K), and 332 surface parking spaces. The proposed project buildings would range from one to two stories tall, with the hotel being one to three stories tall. Approximately 3.7 acres of the project site would be permanent landscaping and open lawn area.	EIR	04/10/2006
2004092101	Point Richmond Shores Richmond, City of Richmond--Contra Costa The proposed project is the development of the Terminal One property in the City of Richmond. The proposed project would consist of 330 for-sale, market rate, podium-based, residential units on approximately 8.91 acres and an approximately 2.39-acre public park and 1.26-acre shoreline band. The proposed project would require City entitlement actions including a request for a General Plan Amendment, Rezoning, Vesting Tentative Map, a Land Disposition Agreement Amendment, street abandonment and development and construction permits. The project may also include a Development Agreement.	FIN	
2006021131	400 Marina Drive Project Seal Beach, City of Seal Beach--Orange The project application includes requests for a General Plan Amendment, Zone Change, and Tentative Parcel Map approvals to allow for the demolition of an existing 10-unit apartment structure, creation of 4 new land parcels and construction of 4 new single family homes at the southeast corner of the Marina Drive and Fourth Street intersection.	MND	03/27/2006
2006021133	TT-17236 Hesperia, City of Hesperia--San Bernardino A tentative tract to create 63 single-family residential lots on 12.0 gross acres. The applicant has also filed Zone Change ZC-2005-12, which would change the zoning to Single-Family Residence (R-1). The proposed zone change is consistent with the existing General Plan Land Use designation. The City is expanding this zone change to include 48.6 gross acres east of this subdivision to bring the zoning into consistency with the existing General Plan designations. The 60.6 gross acres within ZC-2005-12 are generally located east of E Avenue and west of H Avenue,	MND	03/27/2006

	north of Lime Street and south of Muscatel Street. Zone Change ZC-2005-12 is consistent with the General Plan and therefore is exempt from environmental review pursuant to Section 16.12.415 of the Development Code.		
2006022130	The Orchard at Woodland Yolo County Planning & Public Works Department Woodland--Yolo The applicant is proposing a Tentative Parcel Map to divide an existing +/- 9.1 acre parcel into four parcels, two 1-acre parcels, one 2.5-acres parcels, and one 4.6-acre parcel. All proposed parcels are vacant. The proposed project is located just North of the City of Woodland in unincorporated Yolo County. The site is bordered by commercial uses to the west and I-5 to the north. Agricultural land uses are adjacent to the Southern boundary of the proposed project site. The property is currently vacant. The proposed site is also within the City of Woodland Urban Limit Line and Planning Area.	MND	03/28/2006
2006021130	SR 90 Realignment Project and Admiralty Way Improvement Works Los Angeles County Department of Public Works --Los Angeles The proposed roadway improvements in the Marina del Rey area would consist of two projects: the State Route 90 (SR 90, or Marina Expressway) Connector Road Project and, the Admiralty Way Improvements Project. The SR 90 Connector Road Project would consist of the realignment of approximately 1,250 feet of SR 90 between Mindanao Way and Lincoln Boulevard (State Route 1 [SR 1]), and construction of a Connector Road between SR 1 and Admiralty Way. New traffic signals would be constructed at the SR 90/Lincoln Boulevard and the SR 90 Connector Road/Admiralty Way intersections, and some lane changes along SR 1 may also be needed.	NOP	03/27/2006
2006021132	City of Reedley Wastewater Treatment Plant Master Plan Environmental Impact Report Reedley, City of Reedley--Fresno The project consists of the adoption of the proposed 20-year Master Plan for the City of Reedley Wastewater Treatment Plant (WWTP) and the associated expansion. The proposed project will increase the WWTP capacity to 7.0 mgd in two phases over the 20-year planning period. Phase 1 will increase capacity to 5.0 mgd and should provide sufficient capacity through the year 2022. As maximum month flows approach 5.0 mgd, the City would begin planning, designing, and construction of Phase 2 which will increase capacity to 7.0 mgd. The Phase 1 facilities will add a second oxidation ditch and additional facilities to support the ditch. The Phase 2 facilities will include a third oxidation ditch and additional facilities to support the ditch.	NOP	03/27/2006
2006022129	Jameson Canyon Water Treatment Plant Improvement Project Napa, City of Napa--Napa The City is proposing to upgrade and expand the Jameson Canyon Water Treatment Plant (JCWTP) to have an ultimate daily average treatment capacity of 20 MGD and an ultimate hydraulic peak hour treatment capacity of 24 MGD in order to consolidate its water operations from their Hennessey and Milliken Water Treatment Plants to the JCWTP. Expanding the JCWTP would also allow the City to utilize and treat its full allotment of State Water Project water supplies that is delivered through the North Bay Aqueduct (NBA). Being able to fully utilize its NBA	NOP	03/27/2006

2004061080	Draft Tribal Environmental Assessment of Off-Reservation Impacts for the La Posta Band of Mission Indians Gaming Facility La Posta Band of Mission Indians --San Diego The proposed project consists of the development of a 20,000-square foot casino facility on an approximately 20-acre portion of the Reservation. The proposed site for the casino facility is within the most southeastern portion of the Reservation, adjacent to an existing access road. The 20,000 square foot facility would consist of approximately 10,000 square feet of gaming area with up to 350 slot machines and 12 black jack tables. The remaining area would consist of a 15 to 30-seat bar area, a buffet and restaurant area with up to 85 seats, and back of the house and support facilities.	FIN

2005022149	North Vineyard Greens Units #1, #3, Gosal Estates and Davis Property Specific Plan Amendments, Rezones, Use Permit, Vesting Tentative Subdivision Maps, Tentativ Sacramento County Sacramento--Sacramento This Draft Supplemental EIR consists of four applications made to the Sacramento County Planning Department for development of parcels within the North Vineyard Station Specific Plan (NVSSP) area. The four development applications are: Vineyard Greens Unit 1 (Control number: 03-CZB-SVB-SPP-AHS-0099); North Vineyard Greens Unit 3 (Control number: 03-RZB-SVB-SPP-AHS-0141); Gosal Estates (Control number: 03-RZB-UPP-PMR-AHS-0660); and Davis Property (Control number: 03-PMR-0214).	FIN	
2006022133	Matteoli Minor Subdivision Humboldt County Community Development Services --Humboldt The Minor Subdivision of a 34,462 sf parcel currently developed with a single family residence and a legal nonconforming duplex. The subdivision seeks to place the existing units on to their individual lots and create a third lot for future residential development. The lots will range in size from +/- 6,371 sf (net) to 10,856 sf (net) and be accessed by an existing 40' wide road off Law Boulevard, a private road. Proposed Parcels 1 and 2 will be accessed via a 30' private road which requires an exception to the 40' road standard. Each parcel will continue to be served by community water and sewer. No changes or expansions to the existing duplex or single family residence are proposed.	MND	03/28/2006
2006022134	Tract Map 05-1017, JJD Investments, Inc. Tehama County Planning Department --Tehama To subdivide a 15.90 acre parcel into 37 parcels ranging in size from 15,000 sq. ft. to 27,000 sq. ft.	MND	03/28/2006
2006022139	Zone 7 Mocho Groundwater Demineralization Plant Project Zone 7 Water Agency Pleasanton--Alameda The proposed project consists of construction and operation of a 7.7 mgd demineralization facility, which would be located adjacent to Arroyo Mocho off Stoneridge Drive and Santa Rita Road in the city of Pleasanton, California. The facility would treat potable water supplies from existing wells in the vicinity. Operation of the proposed facility would consist of demineralization or reverse	MND	03/28/2006

	<p>osmosis treatment of source or raw water from the water wells. Reverse osmosis (RO) is a physical separation process, in which water is pressurized and passed through a semi-permeable membrane. Molecular constituents (i.e., calcium, magnesium, sodium, etc.) larger than the molecular pore size of the membrane do not pass through, and exit the membrane system as concentrate. Demineralized water molecules pass through the membrane and exit the system as permeate or product. Demineralization would occur through the use of an RO membrane-based treatment, producing permeate water and concentrate. Zone 7 would blend permeate with other groundwater (non-demineralized) and/or surface water before delivery to achieve a target total dissolved solids or hardness level. The concentrate solution resulting from the RO process would be discharged into San Francisco Bay via the Livermore Interceptor, which is located along the northern portion of the project site and/or via the Dublin San Ramon Services District (DSRSD) Export Pipeline.</p>		
2006022140	<p>Brahma Kumaris Master Plan Waiver Request, Precise Development Plan, Use Permit and County-Initiated Rezoning Marin County Novato--Marin</p> <p>The project consists of converting an existing residentially developed parcel to a residential religious and meditation retreat center with staff residential and over-night dormitory facilities.</p>	MND	03/28/2006
2000081061	<p>Home Depot - La Mirada La Mirada, City of La Mirada--Los Angeles</p> <p>The applicant, Rich Development Company, is proposing the construction of a 131,512 square-foot store that includes 108,120 square feet of retail area floor area and a 23,392-square foot garden center on the 9.2 acre parcel. In addition, two retail pads (i.e., 4,250 square feet and 6,000 square feet), are proposed on the 1.2-acre parcel west of the proposed realigned segment of Telegraph Road. A third 5,037-square foot pad is also identified at the northwest corner of Imperial Highway and La Mirada Boulevard in the location of the existing bank. A total of 146,799 square feet of retail floor area, including the three retail pads, is proposed by the applicant for the subject property. In addition, the applicant is also proposing 534 surface parking spaces, which is less than the parking code requirement of 552 parking spaces. Project implementation will necessitate the approval of the following discretionary actions: Master Site Plan, Tentative and Final Parcel Map (to assemble existing parcels and vacate existing street rights-of-way), Disposition and Development Agreement, and Development Agreement.</p>	NOP	03/28/2006
2006021147	<p>Los Lagos Specific Plan Calexico, City of Calexico--Imperial</p> <p>The project proposes an annexation, general plan amendment, sphere of influence, pre-zoning, tentative tract map, and specific plan for construction of a mixed use development. The project proposes 1,900 dwelling units composed primarily of single-family residences, as well as townhomes with 4-plex and 6-plex models. Neighborhood commercial uses are proposed at intersections of Dogwood Road and Highway 98 and Dogwood Road and Cole Road. Also proposed are two elementary schools, community parks, a lake feature, a fire station, retention basin, and an Imperial Irrigation District (IID) Substation.</p>	NOP	03/28/2006

2006022132	Upper Ranch Vineyard Project - Rodgers Property Napa County Napa--Napa The Upper Range Vineyard Project - Rodgers Property would involve installing erosion control features and practicing erosion control measures for a new approximately 161- acre vineyard on privately owned properties in Napa County, California. The entire project site is comprised of seven parcels totaling approximately 678 acres. Agricultural uses are within the County's "right to farm" policy. However, because the project would involve earthmoving activities on slopes greater than 5%, approval of the Erosion Control Plan (#02-454=ECPA) by the County of Napa is considered "discretionary". This makes it subject to review under the California Environmental Quality Act (CEQA). The project site is located in the hills between the Silverado Trail and Lake Hennessey, about 2 miles northeast of Rutherford and 13 miles north of the City of Napa. The erosion control measures would be implemented in the proposed vineyard area, which will cover 161 acres (approximately 24 percent of the total 678 acres), while existing vegetation will remain on 517 acres (approximately 76 percent of the 678 acres). The property is currently grazed by cattle, which would continue with the proposed project.	NOP	03/28/2006
2006022136	Brisbane Baylands Phase I Specific Plan (Case SP-1-06) Brisbane, City of Brisbane--San Mateo Proposed Phase I Specific Plan encompassing approximately 445 acres generally situated southerly of the San Francisco City and County Limits, westerly of Highway 101 and easterly of the Caltrain rail line. The Plan proposes approximately 107 acres of commercial, 68 acres office/ institutional, 118 acres of aquatic open space, 99 acres of upland open space/ open area and 54 acres of right of way. The plan also includes a framework plan addressing basic parameters associated with circulation, land use, open space, infrastructure and utilities for potential future development of a larger approximately 659 acre area, including the Phase I Specific Plan area along with adjacent properties generally situated to the west, between the Caltrain rail line and Bayshore Boulevard.	NOP	03/28/2006
2006021137	McCormick Selph Incorporated Hazardous Waste Facility Permit Renewal Toxic Substances Control, Department of Hollister--San Benito DTSC is renewing a Hazardous Waste Facility Permit (Permit) for McCormick Selph, Inc. (MSI) in accordance with California Health and Safety Code, division 20, chapter 7.5, section 25200 and the California Code of Regulations, title 22, division 4.5. The MSI facility (Facility) would be reauthorized to perform hazardous waste management activities under a Resource Conservation and Recovery Act (RCRA) equivalent permit as more fully described below. MSI's hazardous waste management activities are fully described in the "Facilities Hazardous Waste Operations Plan," (FHWOP) dated January 4, 2006, which contains the Part "A" and Part "B" Permit Applications.	Neg	03/28/2006
2006021138	Roberts Avenue Open Space Restoration Monterey, City of Monterey--Monterey Monterey Peninsula Regional Parks District proposes to enhance and preserve a 2.5 acre vacant site adjacent to Robert's Avenue across from Roberts Lake. 	the submitted plan includes removal of non-native plant species, planting of native species for habitat enhancement, sand stabilization and aesthetics. An existing artificial berm that is located along side the recreation trail will be lowered to improve visibility to the interior of the property, which will discourage undesired activities from taking place in the hidden areas of the site. 50 to 100 cubic yards of berm soil will be relocated on the site. The plan includes guidelines for re-contouring this berm, sand stabilization, placement of protective fencing, native plant seed collection, re-seeding, propagation of site specific seedling native plants, planting native seedling plants, monitoring of the restoration planting plan, maintenance and placement of environmental educational signs. A key objective of the plan is the creation and enhancement of appropriate habitat for two special status species: <i>Chorizanthe pungens</i> var. <i>pungens</i> (Monterey spineflower) and <i>Gilia tenuiflora</i> ssp. <i>Arenaria</i> (sand gilia).		
2006021139	Multi-Level Soil Gas Probe Study, Palos Verdes Landfill Los Angeles County Sanitation District Rolling Hills Estates--Los Angeles Installation of six multi-level soil gas probes to obtain depth-specific soil gas concentrations within potential subsurface landfill gas migration pathways and to provide data for the Johnson and Ettinger computer model. The project is part of a Five-Year Review of the site required by the Department of Toxic Substances Control.	Neg	03/28/2006
2006021140	Bolster-White Minor Use Permit DRC2005-00051 San Luis Obispo County Morro Bay--San Luis Obispo Request by James White and Jill Bolster-White for a Minor Use Permit to allow a new 2,533 square foot single family residence, a detached 362 square foot guesthouse, a detached 811 square foot garage and conversion of an existing residence to farm support quarters. The project will result in the disturbance of approximately 10,000 square feet of a 67-acre parcel. The proposed project is within the Agriculture land use category and is located at 2580 Jacaranda Lane 3,000 feet south of Los Osos Valley Road, 2 miles east of the community of Los Osos. The site is in the Estero planning area.	Neg	03/28/2006
2006021141	Sauerwein Minor Use Permit DRC2005-00042 San Luis Obispo County Morro Bay--San Luis Obispo A request by Richard Sauerwein for a Minor Use Permit to allow a new 5,956 single-family residence with attached garage. The project will result in the disturbance of approximately 5,500 square feet of a 10 acre parcel. The proposed project is within the Agriculture land use category and is located at 1301 Little Morro Creek Road approximately 1 mile northeast from the City of Morro Bay. The site is in the Estero planning area.	Neg	03/28/2006
2006021142	Mast Avenue Street Improvements Project McFarland, City of McFarland--Kern The project consists of the demolition and replacement of AC paving along the east right-of-way of Mast Avenue between Cliff and Taylor Avenues. Additional work includes the construction of new curb, gutter, sidewalk, and one ADA compliant handicap ramp. Also included will be the relocation of some overhead power utility lines which are proposed to be relocated underground.	Neg	03/28/2006

2005072056	City Water Plant Well Project CIP WA-037 Cloverdale, City of Cloverdale--Sonoma In accordance with The City of Cloverdale Capitol Improvement Plan, the Engineering Department is preparing a contract to drill an additional water production well at the existing Water Treatment Plant located at 490 East First Street, Cloverdale, CA. There are three existing wells on the site that are considered by Sonoma County Department of Health Services, to be pumping surface river water. The existing wells are pumping air during times of high demand. Installation of the new well will allow for greater recharge time of the existing wells. The City has performed a test drilling operation and identified the most viable location for a fourth production well. The new well will be located some 250 feet north of existing Well No. 8, adjacent to the Russian River. The proposed well machinery will be housed in an approximately 96-square-foot CMU block building, as are the existing wells.	NOD

2006028353	<p>Application of InSAR to the Monitoring and Mitigation of Surface Subsidence from Increased Geothermal Development in the Imperial Valley Energy Commission San Diego--Imperial</p> <p>This proposal will evaluate the ability to use former (ERS-1 and ERS-2), current (RADARSAT and ENVISAT) and future (ALOS) satellite data, as well as an airborne system, to map surface elevation changes in the vicinity of power production sites in the Imperial Valley. It is anticipated that the current installed capacity of 500 MW in the Imperial Valley will increase over the next decade to an additional 2,000 to 3,000 MW. This increase in geothermal energy production must remain compatible with the present agricultural industry uses of the valley floor and the delicate balance involved in continuing the salt leaching technology. InSAR may provide a cost-effective technique for monitoring surface movement in this region, and provide the technical data necessary for the design of any needed mitigation strategies.</p>	NOE	
2006028354	<p>Structural Geothermal Heating District for Mammoth Lakes Energy Commission Mammoth Lakes--Mono</p> <p>This project proposes to develop the first comprehensive planning study covering the organizational and financial structure for a geothermal district heating system. Project activities would include the assessment of various organizational and financial structures, legal implications of those structures, cost effectiveness, and the marketing needed to gain acceptance and participation by new and existing property owners.</p>	NOE	
2006028355	<p>Geothermal Exploration Drilling, Assessment and Demonstration in Indian Country Energy Commission --Modoc</p> <p>This proposal seeks GRDA funds to complete the well and to expand, deepen and test it. The cost sharing with DOE would share the financial risk, increase the likelihood of completion of the well with a successful outcome, increase the value of data attainable from the well, and decrease the cost of a development project, should one follow drilling.</p>	NOE	
2006028356	<p>Increasing Steam Production from an Existing Well Using Near-Horizontal Drilling Technology Energy Commission Santa Rosa--Lake</p> <p>The Bottle Rock geothermal field, located at The Geysers, shut down in 1991 after six years of service due to the declining steam production. It is now proposed to reopen this facility and restore power generation by using new drilling technology that has successfully been employed by the oil industry to increase production. The project is expected to increase the amount of electricity being generated at The Geysers geothermal field by 4 megawatts over the next 15 years.</p>	NOE	
2006028357	<p>Electrical Line to Gas Pump, Lake Perris (05/06-IE-20) Parks and Recreation, Department of --</p> <p>Run an electrical conduit from the existing gas pump to the auto shop in the maintenance yard of Lake Perris.</p>	NOE

2006024006	Implementation of the Army Residential Communities Initiative Land Exchange U.S. Army Seaside--Monterey Under the proposed land exchange project, the Army would convey the Drumstick, Light Fighter Drive, and Firehouse Parcels to the City of Seaside in exchange for the Stillwell Kidney Parcel. Subsequent development by the Army would increase the family housing inventory at the Ord Military Community by 340 units. Additional development within Seaside would contribute up to 120 workforce affordable units, 280 market-rate units, and 38 affordable units, plus 96,400 square feet of commercial space. Project buildout is expected to be complete within ten years.	EA	03/30/2006
2005112057	West Placer Middle School Dry Creek Joint Elementary School District --Placer The proposed project involves the construction and operation of a new middle school. Upon completion of the project, the middle school will accommodate approximately 957 students, and may expand to approximately 1,201 students.	EIR	04/14/2006
2006011020	San Luis Obispo County Regional Airport Master Plan Update San Luis Obispo County --San Luis Obispo The project consists of the adoption of the Master Plan Update for San Luis Obispo County Regional Airport. Project components in the Master Plan Update include airfield, landside, and ancillary improvements at the Airport. The primary component of the project is the extension of Runway 11 by 800 feet.	EIR	04/13/2006
2005071060	Grand Central Waste Transfer Station Pomona, City of Pomona--Los Angeles Grand Central Recycling & Transfer Station, Inc. proposes to construct a municipal solid waste (MSW) transfer station in the City of Pomona. The project has been identified as the Grand Central Transfer Station Project.	FIN	
2005114006	Perris II Desalter U.S. Army Corps of Engineers Perris--Riverside The proposed construction on vacant land that was previously disturbed by agricultural activity and includes a 7,500 square foot desalter and sited on less than three acres, which encompasses the following design and construction components: 1) Reverse Osmosis (RO) building; 2) chemical storage and feed facilities; 3) chlorine contract tanks and finished water pump station; 4) a brine pump station and connection to Temescal Valley Regional Interceptor; 5) a field laboratory; and 6) a storage and maintenance facility.	FON	03/29/2006
2005121013	Palmwood Specific Plan Desert Hot Springs, City of Desert Hot Springs--Riverside The proposed project is a Specific Plan and related entitlements in support of a 1,766 acre mixed use development for annexation in addition to, a 347.92 acre area (outside of the Specific Plan) proposed for annexation into the City of Desert Hot Springs. Related entitlements include annexation, General Plan land use map and Zoning Map amendments to accommodate the annexation and proposed land uses, Specific Plan, Vesting Tentative Tract Maps, and a Development Agreement and the proposed annexation and General Plan and Zoning Map amendments	NOP	03/29/2006

	include certain property that is not a part of the Specific Plan development proposal. Proposed land uses in the Palmwood Specific Plan will include approximately 2,063 dwelling units, a 27 hole golf course and associated amenities and an 18 hole, par 3 course, community commercial uses to include a proposed 400-room resort spa hotel with related recreational amenities, general commercial uses to include a proposed amphitheater, and open space land uses. Highway 62 and Indian Avenue transect the project site.		
2006021149	Central Elementary School Expansion Escondido Union School District Escondido--San Diego The project site consists of approximately 0.32 acres of land on two parcels in an established residential neighborhood in Escondido's Central Business District. The proposed project includes site acquisition, demolition or relocation of existing structures, and reconstruction to expand playfields and open space for the existing Central Elementary School. The ability to expand this school site is of particular benefit in that Central Elementary School has been designated a Critically Overcrowded School by the California Department of Education. The parcels are currently occupied by four structures, including three duplexes and one single family home. The proposed project would require the removal of these four structures and the relocation of the residents within these parcels. The school district plans to expand into the northwest parcels adjacent to the school in order to increase the recreational facilities associated with the Central Elementary School. No building structures are proposed for the site, and Central Elementary School's student capacity would not be increased with implementation of the project.	NOP	03/29/2006
2006021150	Artesia Corridor Specific Plan Project Gardena, City of Gardena--Los Angeles The proposed Specific Plan would allow for the development of 375,000 square feet of general commercial uses, 40,000 square feet of restaurant uses and 300 residential units, including approximately 70 live-work units with 500 square feet of office space each. The Land Use Plan is designed to accommodate these uses through the creation of two land use designations, Mixed Use and General Commercial, in four Planning Areas. The existing uses are anticipated to remain in the Specific Plan Area.	NOP	03/29/2006
2006022142	2006 Measure 1/2 Percent Sales Tax Investment Plan Madera County Transportation Commission Chowchilla, Madera--Madera Madera County Transportation Commission and the Authority are preparing the investment Plan for the allocation of 1/2 Percent Sales Tax proceeds to transportation improvements within Madera County over a minimum of twenty (20) years. Votes will decide if sales tax should be imposed in the November 2006 election.	NOP	03/29/2006
2006024007	Calexico West Port of Entry Expansion/Renovation, Calexico, California U.S. General Services Administration --Imperial The purpose of the expansion/renovation is to reduce traffic congestion in Calexico and Mexicali city centers caused by vehicles crossing the border, to improve border security; and to provide safe, secure, and efficient operational areas for the public and Federal employees. This facility serves both vehicular and pedestrian traffic into and out of the Mexican city of Mexicali. The need for this expansion/renovation	NOP	03/29/2006

	derives from the substantial recent increase in its use by international travelers. The existing POE is not equipped to process the increase within an acceptable level of service consistent with the Federal Inspection Service's minimum standards. Problems at the current facility are mostly related to inadequate space for inspection operations, equipment, and personnel. The facility also mostly related to inadequate space for inspection operations, equipment, and personnel. The facility also requires seismic retrofitting.		
2006031047	VanBuren Project Coachella, City of Coachella--Riverside The proposed project includes the development of a residential community with single-family homes on approximately 77-acres. The development would include 275 single-family lots on 53 acres, as well as 24 acres of open space. The minimum lot size for the residential units would be 7,200 square feet and the average lot size would be 8,345 square feet. Proposed site improvements include the construction of necessary roadways and infrastructure as well as 5.27 acres of park/landscaping and a 2.18 acre easement.	NOP	03/29/2006
2006021151	GPA 16, ZCC 82 Zone Map 81; Thomas Nguyen by Cornerstone Kern County Planning Department Bakersfield--Kern The current General Plan designation is Map code 8.3/2.1 and Map Code 8.3 and the zoning is A. The applicant's intent is to change the General Plan designation to Map code 5.45/2.1 and map Code 5.45, and zone classification E (1/2), to create sixteen 1/2-acre residential lots and ten 1-acre residential lot. The site will use private septic systems for sewage disposal and a community water well system for domestic water. Site access will be from Industrial Farm Road.	Neg	03/29/2006

2006028436	PA 05-042 Dublin Transit Center Site E-1 (D.R. Horton) Stage 2 Planned Development Zoning, Site Development Review, and Development Agreement Dublin, City of Dublin--Alameda The proposed project is a Stage 2 Planned Development Zoning, Site Development Review and Development Agreement for the construction of a 300 unit multi-family condominium community with approximately 15,000 sq. ft. of ground floor retail. The subject property is located on Site E-1 in the Dublin Transit Center at the southeast corner of Dublin Boulevard and Iron Horse Parkway in Dublin. The property is zoned PD, Planned Development and is located within the Eastern Dublin Specific Plan area. The General Plan and Eastern Dublin Specific Plan land use designation for the property is Campus Office - "flex parcel" which allows up to 300 residential units and 15,000 sq. ft. of retail.	NOE	
2006028437	Storm Drainage and Sanitary Sewer Maintenance Fish & Game #3 Oakland--Alameda The project operator proposes to repair the creek bank due to a fallen tree that caused bank erosion and exposed a sewer pipe. Repair includes rip rap and willow stakes along the bank. Issuance of a Streambed Alteration Agreement Number 1600-2005-0086-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2006028438	Crystal Ranch Subdivision HOA Slump Maintenance Fish & Game #3 Concord--Contra Costa The project operator proposes to repair 300 square feet of bank slump behind the residence. This includes removal of cobble and loose slide material. The disturbed area will be seeded and covered with erosion control matting. Issuance of a Streambed Alteration Agreement Number 1600-2005-0551-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2006028439	Dudley Ridge Water District and Kern County Water Agency Long Term Storage and Exchange of State Water Project Water Supplies with the Kern Water Bank Groundwater Dudley Ridge Water District --Kern, Kings DRWD and KCWA have requested DWR to approve deliveries of a portion of DRWD's 2003-2007 State Water Project (SWP) water supplies for storage and later recovery from the Kern Water Bank (KWB) Groundwater Banking Program within Kern County Water Agency's (KCWA) service area. DWR would deliver a portion of DRWD's SWP water supplies normally scheduled for delivery to DRWD's turnouts in Reach 8D, to KCWA's turnouts at Reach 12E and 13B of the California Aqueduct for storage in the KWB. Water delivered to KWB shall have a ten-year return period subject to DRWD need and future agreements.	NOE
